Re: Revised Feasibility Study Report for the L. E. Carpenter
Company (aka Dayco Corporation) Site in Wharton, NJ

Dear Ms. Purcell:

After writing my December 23, 1992 letter to you, I received two additional memos (copies enclosed) commenting on the November 1992 Revision of the Feasibility Study Report for the L. E. Carpenter Company Site. I don't believe that either memo requires any change to the FS Report. However, some comments (e.g., the one about biodegradable surfactants which could enhance soil flushing) could be of use during the remedy selection process or during remedial design.

Feel free to contact me at 212 264-8098 if you wish to discuss this matter.

Sincerely yours,

Jonathan Josepfs, Project Manager
New Jersey Superfund Branch II
Emergency and Remedial Response Division
